PROFESSIONAL SUMMARY

Data & Business Intelligence professional with 4+ years of experience designing Power BI dashboards, automating reporting pipelines, and turning complex operational data into actionable insights for Finance, Workforce, Quality, HR, and executive stakeholders. Skilled in data modeling, DAX, Power Query, and data governance, with process automation initiatives that delivered over USD 73,000 in savings.

CORE SKILLS

Business Intelligence

Power BI (Dashboard Development, Data Modeling, Star Schema, DAX), Power Query, Data Visualization, Data Storytelling

Analytics & Reporting

Data Analysis, Statistics, Business Reporting, Data Governance, Performance Tracking

Productivity Tools

Excel, PowerPoint, Word, Microsoft Project, Jira, Float, Polaris

Data & ETL

Data Cleaning & Transformation, PostgreSQL, Power Automate, API Integration

Project & Process

PMO, End-to-End Project Lifecycle, Lean Six Sigma, Stakeholder Management

Design & AI

Figma, Adobe Photoshop, Canva, Generative AI, Prompt Engineering

PROFESSIONAL EXPERIENCE

Senior PMO Specialist — EMIDS Technologies

Aug 2024 – Sep 2026

KEY ACHIEVEMENT

Led the migration of Polaris reporting to the ARC platform with zero disruption to data continuity, retiring legacy licensing and saving ~USD 50,000. Received the 'Star Award – Inclusive Innovator' and two additional performance awards.

- Owned and maintained a suite of Power BI dashboards (Executive Summary, Financial, AI, Delivery Excellence, and Resource Profitability), plus weekly RAG, quality, and financial reports for senior leadership.
- Built live Power BI dashboards that combined data from multiple sources, backed by clean, well-structured data models for reliable reporting and analysis.
- Used Power Query and Float API integrations to build custom PMO reports beyond standard extracts, improving data quality, structure, and reliability.
- Identified and implemented reporting automation and process improvements that strengthened PMO governance and efficiency.
- Coached internal and external teams through Power BI enablement sessions on dashboard development, data analysis, and reporting best practices.

KEY ACHIEVEMENT

Introduced Power BI reporting solutions that replaced costly custom report development, saving ~USD 23,400, and co-facilitated UAT for Polaris deployments.

- Maintained and automated PMO reports (utilization, bench, headcount, leave audits, resource planning) across reporting cycles from weekly to annual.
- Administered Float resource planning and reconciled Float and Polaris data to keep reporting accurate and consistent.
- Delivered onboarding and training on Float and Polaris, improving adoption and reporting accuracy.
- Supported continuous improvement initiatives within the PMO to strengthen project governance and delivery practices.

CERTIFICATIONS

- Prompt Engineering for Work — Udemy (2026)
- Business Intelligence with Power BI: End-to-End Solution — DICT (2024)
- Career Boost with Power BI — Exodus Experts (2024)
- Data Analytics and Insighting — Certified Digital Marketer (2023)
- Data Visualization and Storytelling — Certified Digital Marketer (2023)
- Foundations of Project Management — Coursera (2022)
- Effective Project Management — Ask Lex PH Academy (2021)
- Lean Six Sigma Yellow Belt Certification — Change Agent Academy (2021)

EDUCATION

Bachelor of Science in Industrial Engineering

2018 – 2022

Polytechnic University of the Philippines – STC

- President's and Dean's Lister (2nd – 4th Year)
- 1st Place, BSIES Feasibility Study Competition (April 2022)
- Participant, 1st International Research Conference: "Ethics of Care in Knowledge Production during the Pandemic" (May 2022)
